

MOBILE PHONES BANNED IN NGI COLLEGES AND CAMPUSES

Dear Parents guardians and students ,

We have been receiving representations from parents and stake holders against the introduction of mobile phones in NGI college campuses and after getting inputs from faculty , staff. Mentors, student councillors and hostel wardens it has been established that mobile phones have been a nuisance and great distraction and hindrance for students in their academic activities both in campus and outside. Even major road accidents are occurring due to rampant usage of cell phones while driving and numerous other addiction and misuse in the social media. **Considering the requests of parents and stake holder's mobiles phones are banned in the colleges with immediate effect.**

All to kindly comply and implement
